

SAQLAIN SULTAN

Frontend Developer • React.js • Next.js • UI/UX

Kolkata, India | +91 99032-39383 | saqlainsultan991@gmail.com | saqlain.work github.com/saqlain991 | linkedin.com/in/saqlain-sultan

SUMMARY

Frontend Developer with hands-on freelance experience building real web apps for clients in India and the Gulf. Comfortable with React.js, Next.js, and TypeScript, with a basic working understanding of GraphQL and CI/CD picked up from live projects. Enjoy turning designs into clean, responsive interfaces and learning new tools fast. Currently pursuing an MBA in AI to build product sense alongside the code.

SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, React.js, Next.js, Node.js, Express.js

Frontend: HTML5, CSS3, JSX, Tailwind CSS, Shadcn/UI, Framer Motion, Material-UI, Bootstrap, Responsive Design

Backend & APIs: REST APIs, GraphQL, Next-Auth, Auth0, Clerk Auth, Prisma ORM, PHP

Databases: PostgreSQL, MySQL, MongoDB

Cloud & DevOps: AWS (EC2, S3, IAM, Lambda), Vercel, Netlify, Render, cPanel, Docker (basics), CI/CD(Basic)

Tools & Practices: Git/GitHub, Figma, Postman, Webpack, ESLint, WCAG/ARIA Accessibility, Performance Optimization, Cross-browser Testing

PROJECTS (FREELANCE)

Majid Constructions — Inventory & Invoicing Suite (Oman) — *Next.js, React, Prisma, MySQL, Tailwind CSS, Shadcn/UI*

- Built a production-grade, role-based inventory, invoicing, and stock-ledger SaaS dashboard for a construction and trading company in Oman, handling invoices, delivery orders, purchase/issue tracking, and stock ledger in OMR with 5% VAT.
- Designed the full data model in Prisma + MySQL and implemented three-tier RBAC (Super Admin, Admin, User) to secure sensitive financial and inventory records.
- Implemented server-rendered PDF generation for invoices and reports, moving-average stock costing, and running stock-ledger balances.
- Codebase available on request (client NDA).

Polyglot Institute Oman — Feedback Platform & SEO/Performance Audit — *Next.js, React, Tailwind CSS, PostgreSQL, Prisma, Vercel* | forms.polyglot.org

- Engineered a multilingual course-feedback platform with role-based dashboards, real-time analytics (Recharts), and automated PDF report delivery via SMTP.
- Conducted a full technical SEO and site-performance audit for pi.om, delivering a prioritized fix report, a 19-sheet issue-tracking workbook, and a maintenance proposal.
- Designed the PostgreSQL schema with Prisma ORM and used Turbopack to cut development build times by ~40%.

Seed NGO — Seedin.org — *HTML5, CSS3, JavaScript, PHP, MySQL, ImageKit API, REST API* | seedin.org

- Built a scalable NGO fundraising and project-visibility portal supporting 2K+ monthly users with a custom admin CMS and ImageKit-powered media delivery.
- Designed a REST API layer for secure frontend-backend communication, enabling future mobile app integration.

Zoomly — Video Conferencing Platform — *Next.js, React.js, Tailwind CSS, Clerk Auth, Stream.io API, Vercel* | zoomly.saqlain.work

- Built a real-time video conferencing platform supporting multi-user calls and cloud recordings, with Clerk Auth for secure SSO.
- Refactored UI with Tailwind CSS and Shadcn/UI, achieving 95+ Lighthouse scores and zero-downtime CI/CD deployments on Vercel.

AI Image Generator — *Next.js, Nebius AI API, Tailwind CSS, PostgreSQL, Cloudinary* | ai-image.saqlain.work

- Developed a cross-device AI image-generation platform integrating the Nebius AI API with async prompt handling.

- Built scalable cloud storage on Cloudinary and designed a PostgreSQL schema for user management and generation history.

Invoice SaaS Generator — *Next.js, React.js, Tailwind CSS, Shadcn/UI, Clerk Auth, PostgreSQL, Razorpay* | invoice.saglain.work

- Built a multi-tenant SaaS platform for invoice generation with customizable templates, PDF export, and client email dispatch.
- Integrated Razorpay for subscription billing with webhook-driven status sync and retry logic; implemented owner/member RBAC via Clerk Auth.

Farthest Technology — Corporate Website — *Next.js, React.js, Tailwind CSS, Shadcn/UI, Framer Motion, Vercel* | farthesttechnology.com

- Designed and developed a high-performance corporate site with animated sections, achieving a 98+ Lighthouse performance score via lazy loading, code splitting, and Next.js Image optimization.

EDUCATION

MBA — Artificial Intelligence | Amrita Vishwa Vidyapeetham, India Sept 2025 – Present

- Coursework and case competitions applying AI and product strategy to real-world business problems.

BCA — Bachelor of Computer Applications | Integral University, India Aug 2019 – Jul 2022

- CGPA: 8.1/10. Led a 10-student team building the university campus portal; coordinated a 100+ participant hackathon as student tech lead.
